

DOUGLAS MASONS COME TO EL PASO

Membership Campaign Is
Started by Douglas Com-
merce Chamber.

Douglas, Ariz., April 24.—To attend the session of the Scottish Rite Masons in El Paso, A. J. Smith, John Hoffman, Andrew Struthers, Peter Smith and T. F. Merritt have left here. All will return during the latter part of the week. There are no Douglas candidates for the degree.

Company G, Arizona national guard, has received notification of approaching inspection, which will be held Thursday evening, April 25, by Lieut. Jewett, U. S. A., special inspector for this state.

The guardsmen are preparing for the event, both by drilling and by furnishing up their arms and camp outfits. The local company now numbers 43, not counting officers.

A membership campaign which has every promise of being highly successful, has been started by Douglas, W. H. McNair and postmaster Fred Cadwell, a director, in behalf of the Douglas Chamber of Commerce and Industry.

"We have seen a large number of people," said Mr. McNair. "Not one has refused us and we secured quite a number of applications for membership in the chamber. The public is beginning to realize the good work that the chamber is doing and as a result is more than willing to help by allying themselves with us."

Nothing occurring within recent weeks has caused more comment upon the streets than the announcement of the automobile drivers of Douglas that they will hereafter refuse to cross the international line. This step was taken as a direct result of the arrest of Antonio Masa, a young chauffeur, and is dictated by the desire to escape trouble.

For the second time within less than a week efforts have been made to burn the residence of Joe McNair, 510 Eighth street. An incipient blaze was discovered in the corner of a screened porch at 3:15 p. m. yesterday afternoon by a small boy who was passing. This is the identical location of the previous blaze. Kline is now certain that someone is trying to destroy his property.

Miss Catherine Williamson, of Alabama, and Luther Graham, of Douglas, were joined in marriage at the home of the groom's parents, Mr. and Mrs. G. D. Graham, 725 Twelfth street, Rev. E. T. Walker performed the ceremony. The bride arrived here only a few days prior to the ceremony.

"Patty" Campbell, a saloonist of Courtland, was arrested by a stranger, having a two-dollar bill raised to a "twenty" passed on him. The bill raised to a "twenty" passed on him. The bill raised to a "twenty" passed on him.

BOBBY'S EXPLANATION.
Teacher sternly: "What were you laughing at, Bobby?"
Bobby: "I was laughing, ma'am; my complexion puckered, that's all." Woman's Home Companion.

**\$3.50 Recipe Free, For
Weak Men.**

Send Name and Address Today—
You Can Have It Free and Be
Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured many weak and nervous men right in their own homes—without any additional help or medicine—that I think no man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am confident it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I am to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what I believe is the quickest-acting, most restorative, and so cure himself at once and quietly. Just drop me a line like this: Dr. A. E. Robinson, 4649 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$5.00 to \$10.00 for merely writing out a prescription like this.

Look--What a Record--Established in El Paso 5 Years

Five Thousand Patients Treated--Not a Single Death

NOT A SINGLE FAILURE DUE TO OUR FAULT OR THE FAULT OF THE TREATMENT, FEW DUE TO ANY CAUSE

We Cure When Others Fail

Edge thus obtained accounts for

Because we devote all our time and attention to the treatment of these diseases including our specialty only. We have made a life long study of these diseases, spending thousands of dollars in research and have made many important discoveries and perfected old ones, evolving a special system of treatment for each particular class of troubles that is safe, sure and certain. The possession of such knowledge thus obtained accounts for the difference between success and failure. It means better office and laboratory equipment, concentration of effort and victory over disease.

In the treatment of all diseases included in our specialty WE ASSUME THE RISK, as we treat each case for a stated fee, which is always as reasonable as is consistent with good services and attention. AND STILL MORE IMPORTANT IF A CURE DOES NOT RESULT OUR SERVICES COST ONE NOTHING, provided the patient follows our instructions and directions. Our offices are thoroughly equipped for the scientific treatment of Chronic, Nervous, Blood and Private Diseases and we extend an invitation to all sufferers to call FOR CONSULTATION, EXAMINATION AND ADVICE which is FREE and does not obligate one in any way.

CATARH Among the many diseases which affect the human system, Nasal Catarrh is one of the most prevalent and liable to greater variety of dangerous complications. In its development the senses of smell, taste, hearing and sight suffer more or less, the throat and lungs often become involved. PINOZONE, a gas formed by a combination of ozone and pine oil generated by a special machine which we have recently installed, is producing some remarkable cures in the most obstinate cases. WE CURE SOME CASES FOR TEN DOLLARS.

DISEASES OF MEN In the treatment of the Special Pelvic Diseases of Men, we have devised, developed and perfected remedies that have for years given perfect satisfaction. No other treatment in our opinion is as effective, prompt and permanent in results. In connection with the above we have given particular time and attention to the treatment of LOSS OF VIGOR AND DRAINS, ERRORS OF DEVELOPMENT and all private diseases and weaknesses. It is not necessary to wait for months for results. Our remedies are applied directly and relief is prompt and permanent.

Describe the above diseases, their symptoms, prevention and treatment. SENT TO ANY ADDRESS in a plain sealed envelope. IF UNABLE TO CALL FOR EXAMINATION, WRITE us for information, book and symptom blank. Give a full history of your trouble and please mention this paper when writing.

Office Hours, 9 a. m. to 7 p. m. Sundays 10-1 Only.

Famous Magazine Boosts Mimbres Valley Country

AMERICAN FORESTRY, in its issue of April, takes occasion to boost the pumping system of irrigation, and incidentally the Mimbres Valley, by publishing the following article by W. E. Holt, entitled "The Underground Water of New Mexico". "A budding historian of the twentieth century has recently declared that one of the smiling valleys of New Mexico was the original 'Garden of Eden' and that offshoots of the original apple tree are still bearing fruit. Partially true, this is not a far-fetched statement. In my mind this year, when I saw apple trees springing from the parent root full three centuries old and still bearing fruit.

"New Mexico is surely fulfilling the Scriptural prophecy. And the desert is being made to rejoice and blossom as the rose. Isaiah might have been speaking of our region when he referred to roses for nowhere under the canopy of heaven do flowers grow more luxuriantly than in the great southwestern valley.

For some reason, as yet unexplained by science, rainfall in the north and east has been gradually lessening for the past decade, to farmers, who for years have harvested abundant crops, have been forced against their will, to make their crops grow in arid conditions. In other words, they want to be their own rain-makers. In order to do this they must come to the states where irrigation is practiced.

"Government projects and the reclamation service appeal very naturally to people and it is not my purpose to dissuade any one thus inclined from making full and exhaustive examination into any and all projected new irrigation projects, but to heretofore promulgated by our generous Uncle Sam.

"It is water, according to all people should know that it takes real money and lots of it for one to succeed on the desert. The irrigation project is a capital cost runs into millions. Men with money, brains and energy will succeed on these projects, even though the cost of obtaining title to the land ranges from \$45 to \$70 per acre, with a perpetual tax for maintenance of community ditches and levees.

"Intelligent farmers are coming to the irrigation idea as the only reliable method of securing crops without a penny of the 'rain' which is so capricious and so quick to change. Just drop me a line like this: Dr. A. E. Robinson, 4649 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$5.00 to \$10.00 for merely writing out a prescription like this.

pumping on the cooperative basis, the original cost being \$35 per acre, but the cost of maintenance has thus far been but \$1.50 per acre. The longest transmission line does not exceed 13 miles and the acreage that will eventually be reclaimed will exceed 150,000 acres. Everything, except citrus fruits, is grown in great abundance and a fine beet sugar factory will soon add value to the area. It might be added right here that New Mexico sugar beets, like her fair women, are the sweetest in the world.

"The Estancia valley is doing wonders around Willard and Estancia through the magic of the pump, where the cost of an acre-foot of water is about \$1.75, their products this year show 1,200 pounds of beans per acre, 120 bushels of potatoes, with other crops in proportion, and truck farming producing \$300 per acre or better, which latter fact applies to all our valleys.

"At Alamogordo, the pump is also becoming a great factor in profitable farm development.

The Albuquerque Region.
"The Albuquerque region, and in fact the whole Rio Grande valley, is starting on a new era of prosperity through the instrumentality of life-giving water, pumped from the earth to give the crops every side by mountain ranges which effectively protect it from severe storms, an approach to a cyclone never having been known. It is truly stated that New Mexico is one of the sanest and wisest of states makes wealth easier and where nature has been most lavish in her gifts to man.

"The Mimbres valley is located in the southwestern part of the state and lies largely in Luna county. It is surrounded by high mountains and ranges which effectively protect it from severe storms, an approach to a cyclone never having been known. It is truly stated that New Mexico is one of the sanest and wisest of states makes wealth easier and where nature has been most lavish in her gifts to man.

Fables Of the Wise Dame

By DOROTHY DIX.

ONCE upon a time there was a man who was always knocking his wife's faults, and who made existence one perpetual hot rooster for her.

At the table he would hammer everything from soup to nuts, and when she appeared in the new gown, or with a fresh piece of millinery on her head, she was sure of getting a merry haka from him.

"To Eighth avenue with your new dress connections," he would cry, "an unhappy woman, for you not know enough not to purchase raiment that turns a woman's head."

"These words would cause the woman to weep bitterly, and as they thus gave her a grouch against her husband, the next day she would chase down town and buy a fresh consignment of pretty gowns and millinery.

"The Albuquerque region, and in fact the whole Rio Grande valley, is starting on a new era of prosperity through the instrumentality of life-giving water, pumped from the earth to give the crops every side by mountain ranges which effectively protect it from severe storms, an approach to a cyclone never having been known. It is truly stated that New Mexico is one of the sanest and wisest of states makes wealth easier and where nature has been most lavish in her gifts to man.

home happy there would be less doing in the city goods line.

"Anyway, it's a cinch that the man who shies a brick at his wife's hat is due to pay for a creation that will be an eye opener and send him to the luncheon counter for his eats."

"There is truth in what you say," retorted the man who had come seeking advice, "and instead of committing suicide I will return home and tell my wife that her new tailor made fits like the paper on the wall, and is of the most recherche style, and perhaps she will not strike me for a chiffon scarf to cover up the wrinkles in the back of her coat."

Moral: This fable teaches that it is economy for a man to jolly his wife.

**MUCH LAND IS SOLD
IN PLAINVIEW COUNTRY**
Plainview, Texas, April 24.—Fully 5,000 acres of land in the Plainview country is reported to have changed hands since the last homecoming excursion of March, through Plainview real estate dealers.

RUIDOSO NOTES.
Ruidoso, N. M., April 24.—J. M. Thomas and family have left for Deming. Felix Miller and Lon Hunter, of Glendale, are here on their way to Alamogordo, where Mr. Hunter goes to recuperate after his long illness.

Mrs. Will Brown, of Carrizozo, is here as the guest of Mrs. I. N. Wingfield. Rev. S. M. Johnson has returned from Roswell.

A STREET CAR FANTASY.
The lady in the street car was hanging to the strap so strongly that the leather strap said to it: "You have a pull, I notice."

The strap said, low and sweet: "Perhaps," she said, "but scarcely enough to get a seat."

"Your mistookness," replied the friend, "are you own fault for throwing away the strap? I am surprised at you."

"I have gotten along with my wife in peace and economy because whenever she made a purchase, instead of saying 'I spoiled about it' in having pulled off a wonderful financial deal, and that kept her from taking it back and cleaning it for something that would have cost twice as much."

"I throw bouquets at her when she wears an old gown and tell her how young and beautiful it makes her look and how well that color suits her, and she is afraid to get a new dress lest she might not hit the lucky combination."

"Neither do I have to put up the money for three months' sojourn at a swell summer hotel where it costs almost impossible to get a room at the clerk's sparker. As soon as the thermometer begins doing stunts in the tube, and before my wife has a chance to get her song and dance about being run down and needing a change, I commence telling her that her cheeks are as rosy as a girl's, and she has not the nerve to mention her health to me."

They Get Even.
"Besides, she does not care to tear herself away from one on whose appreciation and approbation she can always count, and as compliments are cheaper than shopping tickets, domestic harmony is preserved, and it is money in my pocket. I apprehend that many wives set even with their husbands' crooked running up bills, and that if more men would try to make

THREE UNLUCKY NUMBER FOR THREE MEN AND THE SOUTHWESTERN ROAD

Triple Hoodoo Overtakes W.
P. Bain Tuesday; Third in
Three Days.

Three is a fatal number for the El Paso & Southwestern railroad. In the past three days three railroad employees of this road have been injured seriously and the third of the trio, who had both legs cut off at 3 o'clock Monday afternoon, suffered his third accident in three months.

The unfortunate victim of the triple hoodoo Tuesday afternoon the 23d of April, by the way, was W. P. Bain, of 1025 Myrtle avenue, who was thrown from the top of a C. R. L. & P. box car near the Southwestern freight station, and had his left foot crushed so badly that it had to be amputated across the instep and his right leg was amputated four inches above the ankle.

Another victim of the fatal jinx number on the Southwestern system was R. E. La Londe, a freight conductor on the Southwestern eastern division, who was struck by passenger train No. 3, the unlucky numeral again, Sunday afternoon at Carrizozo. He received a broken collarbone, a compound fracture of the left leg and concussion of the brain when the pile beam of the engine struck him. He was brought to El Paso for treatment and is in a critical condition at Hotel Dieu.

The Third Member of Trio.
The remaining member of the trio is C. E. Van Wye, of the western division of the same road, who was struck by a falling rock on the west end and was thrown under the freight

train, his leg being amputated below the knee.

Bain, the railroad worker who was injured Tuesday afternoon, was working on the coach engine which makes up the passenger trains at the union station and switches the coach equipment in the lower yards between trains. He was standing on top of a box car near the Southwestern freight station when a sudden jerk of the engine is said to have thrown him between the cars and the wheels of the moving car passing over both of his feet, according to the employees who witnessed the accident. He was given emergency treatment by the men from the freight station and loaded into a delivery wagon and hustled to Hotel Dieu before the ambulance arrived. He was operated on at once by Dr. C. E. Brown and Dr. W. Brown, the front part of the left foot being amputated and the entire lower right leg being taken off.

Victim of Three Accidents.
Since he has been employed at the Southwestern, Bain has been the victim of three accidents. He was caught between two cars soon after he went to work for the company, his elbow being crushed between the cars. Soon after he had recovered from this accident he was bitten by a bulldog and his leg lacerated by the animal's teeth. The accident Tuesday afternoon when he was thrown from the top of the train completed the mystic trio of accidents for him.

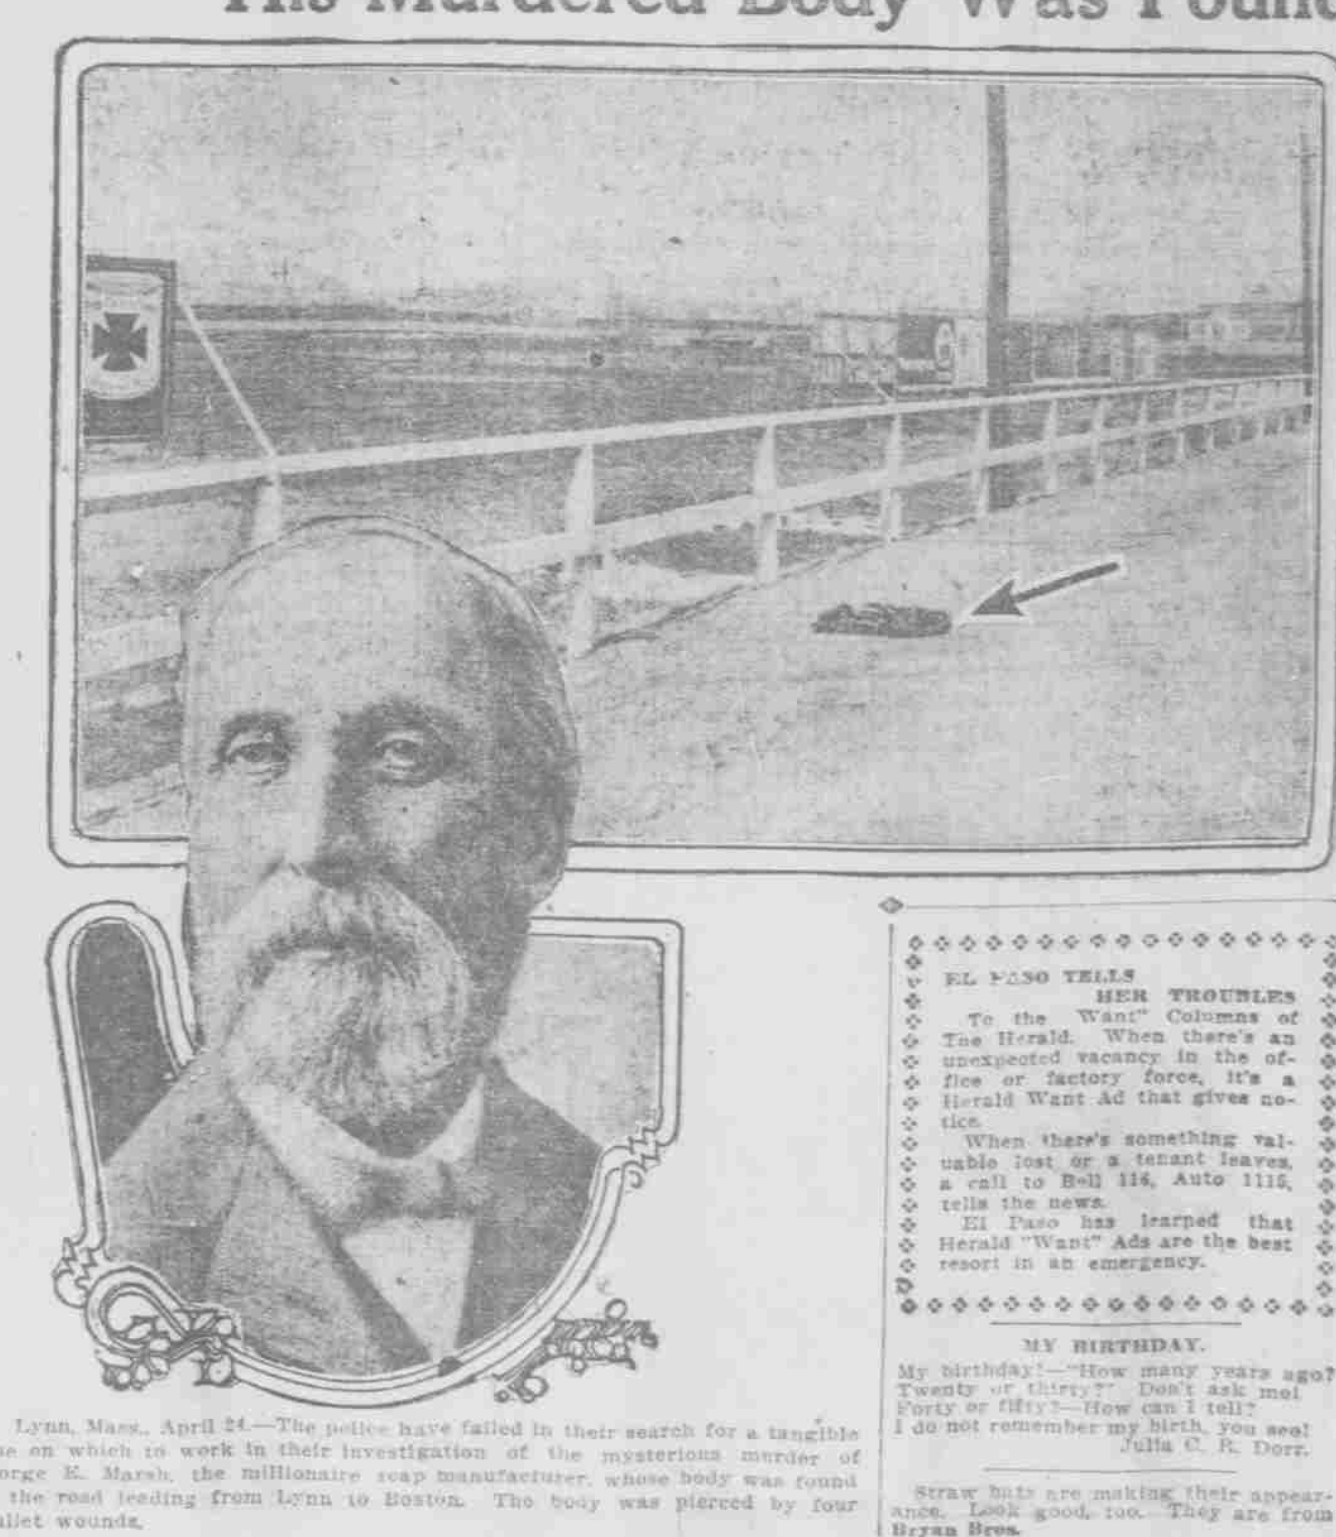

FOLLOWING THE LEADER.
"Yes," said the merchant who doesn't believe in advertising, "the country is going to the devil."

"I thought as much when I read that placard in your window."

"Which placard?"

"The one that says: 'We Lead; Others Follow.'—Brooklyn Eagle.

George E. Marsh and Spot Where His Murdered Body Was Found

GIRL'S COLOR RETURNS Was Pale and Sickly Last Spring

"Every girl is worth five dollars," is an old saying among people who think that the impurities of the blood escape when a girl breaks.

But that is a great mistake. A girl is not a sign of impure blood and has no purifying power. The only thing to do is to enrich and vivify the blood and the best thing for this is Vinol, our delicious cod liver and iron preparation without oil.

Other signs of bad blood are pale skin, weakness, nervousness and run-down condition of the system.

Miss Alice Jones, a bright young girl of Richmond, Ill., N. Y., was pale and weak for months. She began taking Vinol and it not only made her well and strong but also brought back her healthy color. She also says: "I like to take Vinol as the taste is pleasant."

This is the very best time of year to put your blood in good order and build up your system, and we guarantee that Vinol will do this. If it does not, we give back your money. Kelly & Pollard, Druggists, El Paso, Texas.

MY BIRTHDAY.
My birthday: "How many years ago? Twenty or thirty? Don't ask me! Forty or fifty? How can I tell? I do not remember my birth, you see!" Julia C. R. Dorr.

Straw hats are making their appearance. Look good, too. They are from Bryan Bros.
